Masters Examination

I. HUMAN DEVELOPMENT, DIVERSITY, AND BEHAVIOR IN THE ENVIRONMENT 27%

MODULE #1 - RED

IA. HUMAN GROWTH AND DEVELOPMENT

This section of the exam may include questions on the following topics:

- Theories of human development throughout the lifespan (e.g., physical, social, emotional, cognitive, behavioral)
- The indicators of normal and abnormal physical, cognitive, emotional, and sexual development throughout the lifespan
- Theories of sexual development throughout the lifespan
- Theories of spiritual development throughout the lifespan
- Theories of racial, ethnic, and cultural development throughout the lifespan
- The effects of physical, mental, and cognitive disabilities throughout the lifespan
- The interplay of biological, psychological, social, and spiritual factors
- Basic human needs
- The principles of attachment and bonding
- The effect of aging on biopsychosocial functioning
- The impact of aging parents on adult children
- Gerontology
- Personality theories
- Theories of conflict
- Factors influencing self-image (e.g., culture, race, religion/spirituality, age, disability, trauma)
- Body image and its impact (e.g., identity, self-esteem, relationships, habits)
- Parenting skills and capacities
- The effects of addiction and substance abuse on individuals, families, groups, organizations, and communities
- Feminist theory
- The impact of out-of-home placement (e.g., hospitalization, foster care, residential care, criminal justice system) on clients/client systems

MODULE #2 - BLUE

- Basic principles of human genetics
- The family life cycle
- Family dynamics and functioning and the effects on individuals, families, groups, organizations, and communities
- Theories of couple’s development
• The impact of physical and mental illness on family dynamics
• Psychological defense mechanisms and their effects on behavior and relationships
• Addiction theories and concepts
• Systems and ecological perspectives and theories
• Role theories
• Theories of group development and functioning
• Theories of social change and community development
• The dynamics of interpersonal relationships
• Models of family life education in social work practice
• Strengths-based and resilience theories
• The impact of stress, trauma, and violence
• Crisis intervention theories
• Theories of trauma-informed care
• The impact of the environment (e.g., social, physical, cultural, political, economic) on individuals, families, groups, organizations, and communities
• The effects of life events, stressors, and crises on individuals, families, groups, organizations, and communities
• Person-in-Environment (PIE) theory
• Communication theories and styles
• Psychoanalytic and psychodynamic approaches
• The impact of care giving on families
• The dynamics and effects of loss, separation, and grief

**MODULE #3 - YELLOW**

**IB. CONCEPTS OF ABUSE AND NEGLECT**

This section of the exam may include questions on the following topics:
• Indicators and dynamics of abuse and neglect throughout the lifespan
• The effects of physical, sexual, and psychological abuse on individuals, families, groups, organizations, and communities
• The indicators, dynamics, and impact of exploitation across the lifespan (e.g., financial, immigration status, sexual trafficking)
• The characteristics of perpetrators of abuse, neglect, and exploitation

**IC. DIVERSITY, SOCIAL/ECONOMIC JUSTICE, AND OPPRESSION**

This section of the exam may include questions on the following topics:
• The effect of disability on biopsychosocial functioning throughout the lifespan
• The effect of culture, race, and ethnicity on behaviors, attitudes, and identity
• The effects of discrimination and stereotypes on behaviors, attitudes, and identity
II. ASSESSMENT AND INTERVENTION PLANNING 24%

MODULE #4 - PURPLE
IIA. BIOPSYCHOSOCIAL HISTORY AND COLLATERAL DATA
This section of the exam may include questions on the following topics:

- The influence of sexual orientation on behaviors, attitudes, and identity
- The impact of transgender and transitioning process on behaviors, attitudes, identity, and relationships
- Systemic (institutionalized) discrimination (e.g., racism, sexism, ageism)
- The principles of culturally competent social work practice
- Sexual orientation concepts
- Gender and gender identity concepts
- Social and economic justice
- The effect of poverty on individuals, families, groups, organizations, and communities
- The impact of social institutions on society
- Criminal justice systems
- The impact of globalization on clients/client systems (e.g., interrelatedness of systems, international integration, technology, environmental or financial crises, epidemics)

- The components of a biopsychosocial assessment
- The components and function of the mental status examination
- Biopsychosocial responses to illness and disability
- Biopsychosocial factors related to mental health
- The indicators of psychosocial stress
- Basic medical terminology
- The indicators of mental and emotional illness throughout the lifespan
- The types of information available from other sources (e.g., agency, employment, medical, psychological, legal, or school records)
- Methods to obtain sensitive information (e.g., substance abuse, sexual abuse)
- The indicators of addiction and substance abuse
- The indicators of somatization
- Co-occurring disorders and conditions
- Symptoms of neurologic and organic disorders
- The indicators of sexual dysfunction
- Methods used to assess trauma
- The indicators of traumatic stress and violence
- Common psychotropic and non-psychotropic prescriptions and over-the-counter medications and their side effects
MODULE #5 - GREEN

IIB. ASSESSMENT METHODS AND TECHNIQUES

This section of the exam may include questions on the following topics:

- The factors and processes used in problem formulation
- Methods of involving clients/client systems in problem identification (e.g., gathering collateral information)
- Techniques and instruments used to assess clients/client systems
- Methods to incorporate the results of psychological and educational tests into assessment
- Risk assessment methods
- The indicators and risk factors of the client’s/client system’s danger to self and others
- Methods to assess the client’s/client system’s strengths, resources, and challenges (e.g., individual, family, group, organization, community)
- Methods to assess motivation, resistance, and readiness to change
- Methods to assess the client’s/client system’s communication skills
- Methods to assess the client’s/client system’s coping abilities
- The indicators of the client’s/client system’s strengths and challenges
- Methods to assess ego strengths
- Placement options based on assessed level of care
- The use of the Diagnostic and Statistical Manual of the American Psychiatric Association
- The indicators of behavioral dysfunction
- Methods to develop, review, and implement crisis plans
- The principles and features of objective and subjective data
- Basic and applied research design and methods
- Data collection and analysis methods
- Methods to assess reliability and validity in social work research

MODULE #6 - ORANGE

IIC. INTERVENTION PLANNING

This section of the exam may include questions on the following topics:

- Methods to involve clients/client systems in intervention planning
- The indicators of motivation, resistance, and readiness to change
- Cultural considerations in the creation of an intervention plan
- The criteria used in the selection of intervention/treatment modalities (e.g., client/client system abilities, culture, life stage)
- The components of intervention, treatment, and service plans
- Psychotherapies
- The impact of immigration, refugee, or undocumented status on service delivery
- Discharge, aftercare, and follow-up planning
III. INTERVENTIONS WITH CLIENTS/CLIENT SYSTEMS 24%

MODULE #7 - BLACK

IIIA. INTERVENTION PROCESSES AND TECHNIQUES FOR USE ACROSS SYSTEMS

This section of the exam may include questions on the following topics:

- Techniques for harm reduction for self and others
- The principles and techniques of interviewing (e.g., supporting, clarifying, focusing, confronting, validating, feedback, reflecting, language differences, use of interpreters, redirecting)
- The phases of intervention and treatment
- Problem-solving models and approaches (e.g., brief, solution-focused methods or techniques)
- Methods to engage and motivate clients/client systems
- Methods to engage and work with involuntary clients/client systems
- Methods to obtain and provide feedback
- The principles of active listening and observation
- Verbal and nonverbal communication techniques
- The concept of congruence in communication
- Limit setting techniques
- The technique of role play
- Role modeling techniques
- Methods to teach coping and other self-care skills to clients/client systems
- Client/client system self-monitoring techniques

MODULE #8 - TAN

- Methods of conflict resolution
- Crisis intervention and treatment approaches
- Methods and approaches to trauma-informed care
- Anger management techniques
- Stress management techniques
- Cognitive and behavioral interventions
- Strengths-based and empowerment strategies and interventions
- Client/client system contracting and goal-setting techniques
- Partializing techniques
- Assertiveness training
- Task-centered approaches
- Psychoeducation methods (e.g., acknowledging, supporting, normalizing)
- Group work techniques and approaches (e.g., developing and managing group processes and cohesion)
Family therapy models, interventions, and approaches
Couples interventions and treatment approaches
The impact of out-of-home displacement (e.g., natural disaster, homelessness, immigration) on clients/client systems

MODULE #9 – LIGHT GREEN
- Permanency planning
- Mindfulness and complementary therapeutic approaches
- The components of case management
- Techniques used for follow-up
- The elements of a case presentation
- Methods to develop and evaluate measurable objectives for client/client system intervention, treatment, and/or service plans
- Techniques used to evaluate a client's/client system's progress
- Primary, secondary, and tertiary prevention strategies
- The indicators of client/client system readiness for termination
- Methods, techniques, and instruments used to evaluate social work practice
- Evidence-based practice
- Case recording for practice evaluation or supervision
- Consultation approaches (e.g., referrals to specialists)
- The process of interdisciplinary and interdisciplinary team collaboration
- The basic terminology of professions other than social work (e.g., legal, educational)
- The principles of case recording, documentation, and management of practice records

MODULE #10 – DARK BLUE
IIIB. INTERVENTION PROCESSES AND TECHNIQUES FOR USE WITH LARGER SYSTEMS
This section of the exam may include questions on the following topics:
- Methods to establish program objectives and outcomes
- Methods to assess the availability of community resources
- Methods of service delivery
- Theories and methods of advocacy for policies, services, and resources to meet clients'/client systems' needs
- Methods to create, implement, and evaluate policies and procedures that minimize risk for individuals, families, groups, organizations, and communities
- Concepts of social policy development and analysis
- Techniques to inform and influence organizational and social policy
- The principles and processes for developing formal documents (e.g., proposals, letters, brochures, pamphlets, reports, evaluations)
• Methods to establish service networks or community resources
• Community organizing and social planning methods
• Methods of networking

MODULE #11 - GREY
• Techniques for mobilizing community participation
• Governance structures
• Theories of organizational development and structure
• The effects of policies, procedures, regulations, and legislation on social work practice and service delivery
• Quality assurance, including program reviews and audits by external sources
• The impact of the political environment on policy-making
• Leadership and management techniques
• Fiscal management techniques
• Educational components, techniques, and methods of supervision
• Methods to identify learning needs and develop learning objectives for supervisees
• The effects of program evaluation findings on services
• Methods to evaluate agency programs (e.g., needs assessment, formative/summative assessment, cost effectiveness, cost-benefit analysis, outcomes assessment)

IV. PROFESSIONAL RELATIONSHIPS, VALUES, AND ETHICS 25%

MODULE #12 - MAROON
IVA. PROFESSIONAL VALUES AND ETHICAL ISSUES
This section of the exam may include questions on the following topics:
• Legal and/or ethical issues related to the practice of social work, including responsibility to clients/client systems, colleagues, the profession, and society
• Professional values and principles (e.g., competence, social justice, integrity, and dignity and worth of the person)
• Techniques to identify and resolve ethical dilemmas
• Client/client system competence and self-determination (e.g., financial decisions, treatment decisions, emancipation, age of consent, permanency planning)
• Techniques for protecting and enhancing client/client system self-determination
• The client's/client system's right to refuse services (e.g., medication, medical treatment, counseling, placement, etc.)
• Professional boundaries in the social worker-client/client system relationship (e.g., power differences, conflicts of interest, etc.)
• Self-disclosure principles and applications
• Legal and/or ethical issues regarding documentation
• Legal and/or ethical issues regarding termination
• Legal and/or ethical issues related to death and dying
• Research ethics (e.g., institutional review boards, use of human subjects, informed consent)
• Models of supervision and consultation (e.g., individual, peer, group)
• Ethical issues in supervision and management
• Methods to create, implement, and evaluate policies and procedures for social worker safety
• The supervisee’s role in supervision (e.g., identifying learning needs, self-assessment, prioritizing, etc.)
• Accreditation and/or licensing requirements
• Professional development activities to improve practice and maintain current professional knowledge
  (e.g., in-service training, licensing requirements, reviews of literature, workshops)

MODULE #13 - BROWN
IVB. CONFIDENTIALITY
This section of the exam may include questions on the following topics:
• The elements of client/client system reports
• The principles and processes of obtaining informed consent
• The use of client/client system records
• Legal and/or ethical issues regarding confidentiality, including electronic information security
• Legal and/or ethical issues regarding mandatory reporting (e.g., abuse, threat of harm, impaired professionals, etc.)

MODULE #14 - PINK
IVC. PROFESSIONAL DEVELOPMENT AND USE OF SELF
This section of the exam may include questions on the following topics:
• The components of the social worker-client/client system relationship
• The client’s/client system’s role in the problem-solving process
• The social worker’s role in the problem-solving process
• Methods to clarify the roles and responsibilities of the social worker and client/client system in the intervention process
• The principles and techniques for building and maintaining a helping relationship
• The concept of acceptance and empathy in the social worker-client/client system relationship
• The dynamics of power and transparency in the social worker-client/client system relationship
• Ethical issues related to dual relationships
• The impact of transference and countertransference in the social worker-client/client system relationship
• The impact of domestic, intimate partner, and other violence on the helping relationship
• The dynamics of diversity in the social worker-client/client system relationship
• The effect of the client’s developmental level on the social worker-client relationship
• Social worker self-care principles and techniques
• Burnout, secondary trauma, and compassion fatigue
• The components of a safe and positive work environment
• Professional objectivity in the social worker-client/client system relationship
• The influence of the social worker’s own values and beliefs on the social worker client/client system relationship
• Time management approaches
• The impact of transference and countertransference within supervisory relationships
• The influence of the social worker’s own values and beliefs on interdisciplinary collaboration
